NEUTRALITY VIOLATIONS SUSPECTED

New York Being Made Base Of Supplies to English Warships Outside the Harbor

ALLEGED CONSPIRACY OF ORGANIZATION FORMED IN U. S.

IS BEING INVESTIGATED

Evidence Has Been Gathered By Secret Night Trips of U. S. Patrol Boats, Which Will Be Submitted to the Grand Jury—Fine, Imprisonment and Forfeiture of Ships, Penalties.

(Associated Press Telegram)
New York, April 6.—Dudley F. Malone, collector of the port, made a final tour of the New York and Hoboken, N. J., water fronts before daylight today in his effort to prevent violation of the neutrality of this port by an organization which he charges has been formed here to furnish supplies to British cruisers lying off New York.

The trip along the wharves was made in the destroyer MacDougall, one of the naval vessels stationed here to guard the neutrality of the port.

Mr. Malone declared that he intended to ask the federal grand jury to take action at once against an organization, which, he said, appeared to be engaged in a conspiracy to violate the President's proclamation of neutrality. Evidence which the collector has obtained in a series of secret midnight tours of the waters around New York on board a destroyer, it is understood, will be submitted to the grand jury. This, together with information obtained by agents of the collector, he asserted, tends to show that a fleet of large tugboats has been sought by the organization having headquarters in a New York hotel, to move supplies from various points to the British warships which have been watching the entrance to New York harbor almost since the beginning of the war.

With the aid of the grand jury, Mr. Malone hoped to break up the alleged conspiracy and prevent the use of New York as a base of supplies for the warships. "The cruisers have not the right to remain at sea beyond the three mile limit and make a neutral port in this country their base of supplies," he said.

The collector said he knew the names of British warships lying outside the three mile limit, but he declined to announce them. Their number, he said, varied from 2 to 5.

At Mr. Malone's request, two more destroyers are expected to arrive here within a few days to aid in preventing violations of neutrality. His action, he said, was based entirely upon facts discovered by secret service men and not on complaint lodged by any foreign government.

The collector is proceeding under the provisions of a resolution passed by congress on March 3, empowering the President to direct collectors of ports to refuse clearance to vessels carrying arms, ammunition or supplies to warships of a belligerent nation. Under this resolution masters of American vessels used for such purposes are liable to a fine of from \$2,000 to \$10,000 and imprisonment not to exceed two years. Their vessels

FIRMNESS IS THE FEATURE OF U. S. NOTE

Denies the Right of Great Britain and Allies to Blockade Any Neutral Port

TO ADMIT IT WOULD BE VIOLATION OF OBLIGATION.

SOLEMNLY ENTERED INTO

Warns Great Britain That if Any Unnecessary Interference With American Commerce Unhappily Occurs She Must Make Full Reparation for Every Such Act.

(Associated Press Telegram)
Washington, April 6.—With the publication today of its note in reply to the British government's order in council, proclaiming a virtual blockade against commerce to and from Germany, the American government rested its case. Great Britain is now looked to make the next move and her course is awaited with the keenest interest in official and diplomatic circles here.

The note though couched in the most friendly language, denies the right of Great Britain and her allies to blockade neutral ports and reiterates the intention of the United States to insist upon its rights. It declares that to admit that right "would be to assume an attitude of unneutrality toward the present enemies of Great Britain which would be obviously inconsistent with the solemn obligations of this government in the present circumstances, and for Great Britain to make such a claim would be for her to abandon and set at naught the principles for which she consistently and earnestly contended in other times and circumstances."

"This government, therefore," the note says, "infers that the commanders of his majesty's ships of war engaged in maintaining the so-called blockade, will be instructed to avoid an enforcement of the proposed measures of non-interference in such a way as to impose restrictions upon neutral trade more burdensome than those which have been regarded as inevitable when the ports of a belligerent are actually blockaded by the ships of its enemy."

It is then added that many possibilities are seen for "serious interruption of American trade," which would "impose upon his majesty's government heavy responsibilities for the acts of the British authorities." The note concludes with the hope that the British government, "having considered these possibilities will take the steps necessary to avoid them and in the event that they should unhappily occur, will be prepared to make full reparation for every act which under the rules of international law constitutes a violation of neutral rights."

British Trawlers, Submarine Victim

Legislative Committees Act On Several Measures And Hear Arguments Upon Others

(Associated Press Telegram)
Columbus, April 6.—House and senate leaders today agreed to make the Moore senate bill the basis for legislation changing the present civil service system, instead of either the Hoy or Barnes bills in the senate. The senate has passed the Moore bill and it is now pending in the house.

Representative Barnes of Hamilton had insisted on the house passing his bill. The difference between it and the Moore bill may be made amendments to the senate measure, it was said.

The house public utilities committee today killed the Fellingner senate bill, which changed from 24 to 36 hours the maximum time which livestock might be kept continuously in railway cars. The object of the bill was to make the Ohio law conform with federal regulations.

The senate labor committee today voted to report out the Ott bill, limiting the hours of labor for street car and interurban employees, despite the request made by labor

organizations for further hearing on it.

Representative Oberlin, of Stark and Dr. H. C. Eymann, superintendent of the Massillon state hospital appeared before the senate judiciary committee today in support of the Oberlin bill empowering probate judges to commit habitual drug users to state hospitals without adopting the subterfuge of declaring them insane. The committee took the bill under further consideration.

Arguments against the measure are that the state hospitals already are overcrowded. Friends of the measure assert that there is a pressing need for state care of drug users, since the new federal law restricting the traffic in narcotic drugs has gone into effect.

Mayer Spiegel will head a delegation to Columbus tomorrow to lay before Governor Willis and the proper committees of the house and senate the necessity of some action to relieve the financial stress of Cincinnati, as well as of other cities in the state. It is the plan to see the governor in the afternoon.

Burying the Dead Austrians On the Battlefield Before Przemyśl.

NO individual graves, no tombstones or even a cross with a name, marks the graves of the fallen soldiers on many of Europe's battlefields. This picture was taken before the fortress of Przemyśl after a furious attack upon the Austrian trenches in the vicinity by the Russian legions. The Austrians won the day and repulsed the invaders, but with heavy losses to themselves. After the battle the Austrian dead were gathered in a heap, a long trench was dug and the bodies thrown in. The regimental band struck up a mournful tune and the burial was complete.

DEFENDANTS IN INDIANA ARE GUILTY

Jury In Election Fraud Cases Returned a Verdict This Morning

SENTENCES WILL BE PASSED NEXT MONDAY BY COURT

89 HAVE PLEADED GUILTY

And Twenty-Seven Stood Trial—All Defendants Except One Allowed Their Liberty Under Previous Bonds—Federal Courts' Jurisdiction In Such Cases Upheld.

(Associated Press Telegram)
Indianapolis, Ind., April 6.—All of the 27 defendants, including Mayor Donn M. Roberts, in the Terre Haute election fraud case, were found guilty by a jury today. The case has been on trial in the federal court here since March 8.

Judge Anderson announced that sentence would be passed on the 27 men who were found guilty and the 89 who have pleaded guilty next Monday. In the meantime, he permitted all the defendants, with the exception of Alexander Aczel, alias Steel, to remain at liberty under their previous bonds. Steel has been in jail for some time, unable to give bond of \$5000 for alleged attempt to influence government witnesses.

All of the defendants, many of whom were accompanied by relatives took the verdict calmly and there was no demonstration.

Those found guilty are: Donn M. Roberts, mayor of Terre Haute and candidate for the Democratic nomination for governor. Eli H. Redman, declared elected Vigo county judge by ten votes. Elmer E. Tabbot, comptroller of Terre Haute, until his resignation because of the trial here. Dennis Shea, sheriff of Vigo county.

Maurice Walsh, county sealer of weights and measures and treasurer of the campaign funds. Harry S. Montgomery, president of the board of public works. John M. Mastlin, city inspector of weights and measures and a member of the state legislature in 1911. Thomas C. Smith, city judge.

LIMA MURDER AND SUICIDE EARLY TODAY

(Associated Press Telegram)
Lima, O., April 6.—Harry Carnes, 35, proprietor of an automobile filling station, shot and killed Hayes Baker, 37, one of the proprietors of a local hotel bar, here this morning at 2:30, and then killed himself.

The double shooting occurred in the street in front of Carnes' home in the resident district.

When neighbors, awakened by the shots, reached the men, both were dead. Baker had been shot twice through the head. Carnes then committed suicide by placing the revolver in his mouth and firing.

DRY FORCES WIN; REPUBLICANS HAVE CARRIED MICHIGAN

(Associated Press Telegram)
Detroit, Mich., April 6.—With returns practically complete, except from two counties where the result was doubtful, it was conceded today that the drys had won in 13 of the 16 Michigan counties to Michigan's dry column and giving the state at least 43 counties without saloons. The vote was so close in Chippewa and Alger counties that both sides were claiming victory today noon. Among important counties which swung over into the dry column yesterday were Kalamazoo, Calhoun, Mason, Lapeer, Tuscola and Oakland. The vote forced at least 432 saloons out of business and added 336,736 to the population of the state already in dry territory.

Christians In Urumiah Will be In Greater Danger Than Ever, In Fortnight

(Associated Press Telegram)
Julia, Province of Erivan, Transcaucasia, Russia, Monday, April 5.—(Via Petrograd, April 6, and London).—After several days of investigation in the Urumiah district of northwestern Persia, a correspondent of the Associated Press made his way to Julia, over the frontier in Russia to file this dispatch.

It is the opinion of well informed observers that the situation of Christians in Urumiah probably will become more dangerous in a fortnight or so. When the rainy season comes to an end, which will be in about two weeks, large movements of Kurds will pour down into the valleys to the west of Lake Urumiah, according to the traditional customs at harvest time. Already there have been some collisions between Kurds and Christians at a point near Kotur, which is to the west of the river.

WET AND DRY ELECTIONS IN ILLINOIS TODAY

(Associated Press Telegram)
Chicago, April 6.—The principal issue in the township elections in 45 Illinois townships today is the wet or dry question. Nearly four hundred saloons, it is estimated, will be closed should the anti-saloon forces win. In addition to the saloons, many beer peddlers licenses in villages may be affected by the vote.

For weeks a strenuous campaign has been conducted in the several townships. The anti-saloon forces are pinning their hopes on the woman's vote, while in many localities the business men are being rallied to the license ticket on the argument that to force out the saloons would drive valuable trade to other places.

In a number of townships today's election will be followed April 20, by city and village elections in which the license or no license fight will figure.

Under the Illinois license law if a township votes no license, no city, village or other municipality in the township can authorize the issuance of a liquor license. If the township votes wet, however, the municipality within its boundaries can vote against licensing and declare themselves dry territory.

PRINZ EITEL IS STILL AT WHARF AT NEWPORT NEWS

(Associated Press Telegram)
Newport News, Va., April 6.—Hundreds of people who watched the water front all night expecting to see the German converted cruiser Prince Eitel Friedrich make a dash to sea, saw the raider still at her wharf when day broke, a plume of smoke floating lazily from one funnel and nothing in evidence to tell her secret.

Sunrise disclosed a party of painters at work on her hull, scraping off the red rust accumulation of seven months of sea roving.

German Submarine Caught In Trap, Set for the Purpose; Other Activities of the Navy

(Associated Press Telegram)
Paris, April 6.—A German submarine has become securely entangled in a net specially designed for that purpose and placed off Dover, according to the Petit Journal's Dunkirk correspondent, who adds that the French naval authorities expect to capture the submarine when it comes to the surface.

Miles of submarine traps have been set by the British navy at harbor entrances and other strategic points around the British Isles to catch German submarines engaged in blockading England.

The traps are not unlike gill nets used by fishermen. Malleable iron frames ten feet square, three frames joined, are sunk to a depth of 30 feet, suspended from immense buoys. If a submarine, which is a blind thing when submerged, enters one of these frames its sides are the cause of the lower frame to buckle upward, catching the propeller. Thus the craft is in the position of a fish floundering in a net, and its occupants are doomed.

COOL UNIFORMS FOR MAIL CARRIERS IS ORDER OF BURLISON.

(Associated Press Telegram)
Washington, April 6.—Postmaster General Burlison has issued an order permitting city letter carriers to wear cooler summer uniforms which they can procure at less cost than they have heretofore paid.

The order provides that the uniform consist of light weight bluish gray, worsted or serge, "composed wholly or in part of wool or cotton." It makes possible the use of all cotton goods. No change is made in the cut and design of the uniform.

JOHNSON WILL GO TO FRENCH ISLAND OF MARTINIQUE

GATE RECEIPTS \$125,000

But Probably Will Not Exceed That Amount—All Travel Records and Cable Business to and From Havana Broken—Tourists Leaving As Fast As Facilities Will Permit.

(Associated Press Telegram)
Havana, Cuba, April 6.—The city of Havana was today fast resuming its customary aspect after the intrusion yesterday on its normal life of the excitement and enthusiasm incidental to the passing of the world's heavyweight championship from Jack Johnson to Jess Willard in the 26th round of the contest between them. Tonight the citizens of Havana are planning to give the new champion a public reception and present him with a gold watch. Spectators, tourists and fight promoters are leaving the city as fast as facilities offer; the principals also are impatiently waiting to be off, and the great fight is rapidly becoming past history to the city where it was held.

The men most interested in the battle took little part in the general celebration of it last night. Willard spent the early evening, sightseeing with friends from Kansas, after which he had dinner and went early to bed. The promoters were at the race course until long after midnight counting the gate receipts. The official total is not yet known. The silver coins of all denominations taken in at the Oriental race track are piled up in barrels, and alongside of them are stacks of bills, many of them old and dirty and almost falling apart.

The mystery of Johnson's disappearance is now explained. He went to the race track to see the gate money counted, although he had no financial interest in the receipts and at the same time to keep away from visitors.

There is reason to believe that the gate receipts exceeded \$125,000. The absence of the negro from his house led to wild rumors last night that he was in a hospital seriously injured and that he had gone into hiding to avoid United States detectives who were said to be after him for infraction of federal statutes.

The plans for departure of both Jess Willard and Johnson became known today. Willard and his promoters and supporters will leave here Wednesday for Key West on their way north and Johnson, accompanied by his wife and some friends expected to leave Havana the latter part of the week for the French island of Martinique, in the West Indies.

More than eleven thousand persons, tourists, fight spectators and others now in Havana expect to make their way to Key West during the next two days. Buses and trains (Continued on Page 2, Col. 2.)

UNOFFICIAL REPORTS OF AN AUSTRO-GERMANIC RETREAT

IEWS ON AMERICAN NOTE

Expressed In London, Differ Widely As to the Possible Results if United States' Demands Are Pressed, But Unanimous Gratification at the Tone of the Communication.

(Associated Press Telegram)
London, April 6.—What has been called the Easter lull in the fighting is marked these days along both battle lines except in the Carpathians, where the struggle for access to the Hungarian plains is still going on.

This relative quiet has given ample opportunity for discussion by the British press of the American note in reply to the British order in council. The comment on this communication has been widespread. Most of it expresses gratification with the tone of the note, but there is great difference of opinion as to the possible results. Newspapers which from the first have advocated a formal blockade of Germany see a loophole in the note for action on the part of the British government leading to this end, while others express the feeling that a fuller understanding by the United States of the British position will lead to acquiescence with the present order in council.

Unofficial Austrian news reaching London by way of Paris declares that the Austro-German forces in the vicinity of the Lupkow Pass are in full retreat, but all other reports from this section indicate that the opposing armies are still locked in a deadly grapple.

Russia reports fighting within the boundaries of Hungary, north of Czernowitz. The Austrians are described as retreating after a stubborn fight, while on the other hand the Russians claim to have prevented the Austrians from crossing the river Diester and to have taken 1,400 prisoners.

In the diplomatic field there is little of interest except the report that Bulgaria and Serbia have reached a friendly settlement of the trouble arising from the invasion of Serbian territory by Bulgarian irregulars.

AKRON YOUTH WINS ON POINTS FROM HARVEY

(ASSOCIATED PRESS TELEGRAM)
Columbus, April 6.—Johnny Griffiths, of Akron, outpointed Johnny Harvey of New York, in their 12-round bout last night. It was a terrific mill. At the close the Akron boy looked a bit wobbly, due to the furious pace that Harvey carried to him in the last round. With this single exception neither boy showed the effects of the gruelling pace.

Griffiths led the fight on points, due to the fact that the New York boy could not fathom his wicked left hand which he kept working continually.

Time after time they would stand off and swap punches. Griffiths would invariably break ground with a stiff left uppercut to Harvey's face, while the latter was willing. He never once took a backward step, but was no match for the Akron boy in cleverness, who made the New Yorker miss often as he danced around the ring.

The blows that Harvey landed made the up-state boy drive to cover, and when they were fighting at close range he would tattoo Griffiths on the body with short arm blows. Harvey cut down Griffiths' lead by the awful pace that he carried in the last and twelfth round. He started at the gong and with right and left to head, made Griffiths go to a clinch throughout the round. He was after Griffiths, and Johnny looked once as though he would go to his knees. He was very tired, but was still mixing it when the gong sent the boys to the corner.

Doctors Said He Had Dropsy

Some time ago I had an attack of grippe which finally settled in my kidneys and bladder. I doctored with the doctors and they claimed I had dropsy; I tried other remedies and got no relief from any of them. My condition was such that I was unable to work for about two months and the annoying symptoms caused me a great deal of trouble and pain. I was hardly able to turn over in bed. Seeing one of your Almanacs, I decided to give Dr. Kilmer's Swamp-Root a trial and after taking several bottles was able to resume my work again. I cannot say too much in praise of your Swamp-Root as the results in my case were truly wonderful.

WILLARD OFFERED TEN-ROUND BOUT WITH JIM COFFEY

(ASSOCIATED PRESS TELEGRAM)
New York, April 6.—The question which of the various contenders for the heavyweight championship would be the first to persuade Jess Willard to accept a challenge to fight for the title, was the chief subject in New York sporting circles today. That there will be no lack of effort to induce Willard to fight in New York was indicated by the fact that a guarantee of \$15,000 was offered by Billy Gibson, manager of Jim Coffey, for a 10-round bout with Willard in Madison Square Garden some time in May. Coffey, the Dublin giant, will fight Carl Morris in a 10-round bout here tomorrow night.

Bob Fitzsimmons, formerly heavyweight champion was among those who expressed pleasure at Willard's victory. "I am as glad as I can be that the title has come back to the white race," he said. "Johnson must have gone back very much during the past few years. If he was half the man he was when he met Jeffries, he would have pushed Willard's face all over Cuba. Willard will hold the title for a long time. He is the best of the whole flock of 'white hopes' and there is none in sight who can beat him."

TOOK TIP OF FRIEND WHO SAW BATTLERS WORK

William Barrick, a well known young man who formerly resided in East Newark is now a member of Uncle Sam's fighting forces on the water, being a marine on the U. S. S. Michigan, Cuba, for the past several weeks. In a letter to a friend, "Jack" Gandert, an employee of the Frank Bader cafe, he sent a number of views of Cuban scenes and also stated that he expected to witness the big championship fight at Havana, which occurred yesterday. Mr. Barrick said: "Having witnessed the two men work out daily for some time I am confident that Willard will win, for it will be youth against a man that has lived the 'pace that kills' and there is no doubt that Willard will put his man away before the thirtieth round, in fact the black man can hardly go that long. Take my tip, back Willard."

As a consequence of Mr. Barrick's prediction, Mr. Gandert got busy at once and now several of his friends will have to pay for a new summer outfit including suit, hats and shoes. He also increased his bank account to the extent of a nice little sum and has forwarded his friend at Havana a letter of appreciation and a box of imported cigars.

The post card views sent by Mr. Barrick were also very familiar to Mr. Gandert who spent some time on the island when a soldier in the Spanish-American war.

Mr. and Mrs. Broughton left on a short wedding trip and expect to be at home in this city Thursday. Their many friends will extend congratulations and best wishes.

DISPOSITION OF 10-YEAR-OLD BOY BEFORE COURT

Officer Thomas Kelly of Wheeling, W. Va., was in the city today to recover Joseph Comfort, aged ten, for the humane society of that city, which had been chosen custodian for the child. According to Officer Kelly the child's mother, Mrs. Carrie Patterson, of Johnstown, O., had given her consent some time ago to the society taking over the child. Lately she visited Wheeling, so it is alleged, and asked permission to visit Joseph and also to take him to a picture show. The request was readily granted and Mrs. Patterson failed to return. Officer John Dwyer and Officer Kelly brought the youngster into court this afternoon and Juvenile Judge Robbins Hunter after hearing will decide what disposition should be made of the lad.

Four New Managers In the Two Big Leagues.

The National and American leagues will enter this baseball season with four new managers, two in each league. Among these, perhaps, the most interesting is "Wild Bill" Donovan, new manager of the New York Americans.

"I'm going to rule with kind words, not hard knocks nor hard language," says "Wild Bill."

"Wild Bill" was one of the greatest pitchers of his time, and he has been credited with having some of the brains that made the Tigers of Detroit league champions when he was with them.

Roger Bresnahan, new manager of the Chicago Cubs in the National league is, of course, a known quantity. He managed the St. Louis Club of the same league, but under a handicap which may have interfered with his success.

Pat Moran, new chief of the Phillies, has succeeded the fiery "Red" Doorn. He was long the second string catcher of the Cubs but he has had no previous experience as a manager.

Clarence Rowland, new leader of the White Sox in Chicago, has had experience in a minor league, and his work in the big league will be very carefully watched by Chicago critics.

There Is No Affiliation With Federals, Says New Manager; P. B. Wreath Heads Newark Club

Paul B. Wreath of Altoona, Pa., the manager of the new Newark club in the Buckeye League, was in Newark a short time Monday making preliminary arrangements for establishing the club here. He visited the ball park and found things in fairly good shape, issued orders for repairs and much work on the grounds, and announced that he would return to Newark towards the last of the week to make the city his permanent headquarters. Mr. Wreath denied that the league was affiliated with the Federals.

At Saturday's meeting in Akron, A. W. Lawson was named president of the league as was stated in Monday's Advocate. Mr. Lawson represented the Akron club at the meeting; Fred Paige, who secured the lease on Wehrle Park, represented Canton, Mr. Wreath represented Newark and Vincent Farrell represented Lima.

Marion, Findlay and Springfield applied for berths in the new circuit, but the organization decided that President Lawson should visit the three towns before deciding upon the club, which will be composed of six clubs. Lima is also mentioned as a possible candidate for one of the other two towns.

No schedule was adopted for the season, this matter being delayed until a later date. A schedule committee was appointed and a draft of the playing dates will be made and submitted at a subsequent meeting of the directors.

The two games series was popular with the magnates because it would furnish a more frequent change of clubs, giving a greater variety and keeping up the interest. As the league is not under the protection of organized baseball a rule was adopted to prevent players signed with one club from "flirting" with the management of other organizations. Before a player on one club can sign with another, he must have specific permission in writing from his own club.

JOHNSON'S MOTHER DON'T BELIEVE THE NEWSPAPER REPORTS.
(Associated Press Telegram.)
Chicago, April 6.—When newspaper reporters telephoned Jack Johnson's home here yesterday, giving the result of the heavyweight championship fight in Havana, Mrs. Tiny Johnson, the former champion's aged mother, refused to believe the news.

"It can't be true," she kept repeating. "My son is killed! Knocked out? No, no!" So to confirm the reports, she had a member of her household cable her son at Havana as follows:

"What about the fight? Was it a knockout? Who won? Send news at once!"
Before a reply was received, some one evidently desiring to play a joke on the family, telephoned the news of a Johnson victory, which was met with cheers.

AMATEUR BOXERS MEET TO DECIDE CHAMPIONSHIPS

(ASSOCIATED PRESS TELEGRAM)
Boston, April 7.—Interest of boxing enthusiasts, focused yesterday on the world's championship contest at Havana, turned today to this city, where nearly 150 boxers from many parts of the United States and Canada gathered to decide the national amateur boxing championships in eight classes. Cleveland, Pittsburgh, Philadelphia, New Orleans, Chicago, Toronto and New York sent their best representatives to contend with those of this section. There were ten entrants in the heavyweight class.

Preliminary bouts will be held tonight and the semi-finals and finals tomorrow night. The winners, besides securing the usual titles and prizes, will be entered as the representatives of the United States in the international tournament to be held in San Francisco.

Havana, April 6.—The new champion said Friday:
"I have no immediate plans for fights in the future. I am obligated to the syndicate which promoted the fight and would like to rest at home after an exhibition tour which I understand is projected."

Speaking of the final round that won him the victory, Willard said: "The blow that brought the fight to a quick conclusion was a right-hand smash to Johnson's body early in the last round. I felt Johnson grow limp in the next clinch and knew I had the championship within reach. A left to the body and a right smash to the jaw put Johnson down for the count."

"I KNEW JESS WOULD WIN" SAYS HIS WIFE.

Los Angeles, Cal., April 6.—"I knew all along that Jess would win," said Mrs. Jess Willard here when told of the outcome of the fight at Havana. She appeared pleased, but not at all surprised. Her only other comment was made to Jess Willard, Jr., 16 months old.

"Your daddy is champion of the world," she said to him, and kissed him.

MEN'S SUITS

OLD BLAIR CO. TO WIND UP ITS AFFAIRS SOON

In Columbus today, the capital stock of the Blair Manufacturing Company was reduced from \$300,000 to \$750, for the purpose of winding up the affairs of the old company which within the past few days transferred all the property owned under that name, to the new firm, known as The Blair Motor Truck Company. To settle up the final details of the old company, it was necessary for it to maintain its corporate existence.

The new company is rapidly shaping up the preliminary matters and it is expected that operations by the new company will start within a very short time.

RHEUMATISM IN ANKLES

One Bottle of Rheuma. Relieved Woman Who Could Not Walk.

Marvelous as this story may seem, it is absolutely true; but this is only one of the many almost magical cures that Rheuma is performing these days. Use of one bottle will convince any sufferer.

Mrs. Gertrude Kozel, Smithfield, Pa., writes: "I had rheumatism for over a year; it settled in my ankles and I could not walk. I have taken one bottle of Rheuma and do not have any more pain, and I can again walk at will."

T. J. Evans and all druggists sell Rheuma for 50 cents. It is guaranteed to cure any case of any kind of rheumatism or money back.

Gratifying relief comes in a day, because Rheuma acts at once on the kidneys, stomach, liver and blood, and starts to rid the entire system of poisonous uric acid at once.

Pine-Tar-Honey penetrates the linings of the Throat and Lungs, destroys the Germs, and allows Nature to act. At your Drugist 25c.

Y. M. C. A. PROGRESS DURING YEAR 1914

Within the year 1914, seventy new Y. M. C. A. buildings were opened in this country costing \$7,312,000. At the close of the year there were 57 buildings in process of construction, valued at \$9,337,000. Millions more have been pledged and is in hand for the promotion of the work at home and abroad. Among the new associations are the New York Grand Central railroad, \$475,000; Muncie, Ind., \$250,000; Evansville, Ind., \$244,500; Hamilton, O., \$225,000; Flint, Mich., \$112,000. Among those in process of construction are Brooklyn Central, \$1,500,000; Rochester Central, \$380,000; Canton, O., \$225,000; Youngstown, O., \$350,000. Many large gifts were made. Among them are: John D. Rockefeller to Brooklyn, \$300,000; C. M. Pratt and brothers to Brooklyn, \$150,000; H. H. Timken to Canton, O., \$35,000; H. M. Geiger to Canton, O., \$20,000; and C. L. Huston to Coatesville, Pa., \$25,000. The association received 59 bequests, among them are Mrs. Morris K. Jessup, New York, \$350,000; Mrs. Elizabeth Shippen to Philadelphia, \$110,000; John Strandler, Van Wert, O., \$100,000. Van Wert received a large bequest also for a Y. M. C. A.

Newark's Y. M. C. A. was built in 1899 at a total cost of \$38,000. It has never received a bequest. Such gifts would help to put the work on a stronger basis.

The board of directors next week will endeavor to raise \$4000 to assist in the current expenses for 1915-1916. This amount does not exceed the budget of any of our leading churches and the people should provide this quickly. Contributions may be left at the Y. M. C. A., or with any member of the board of directors.

NOW YOUR CORN MUST GO

Dr. Hunt Discovers Method that Kills Corns by Penetration. ONLY 10c.

That old corn, that stubborn corn, that soft corn, that sore corn, the corn that will come back, you can now get rid of it once and for all, for Dr. Hunt of Sidney, Ohio, has discovered the scientific principle that makes corns go easily and painlessly.

Dr. Hunt's New Corn Cure does its work by penetration. That is Nature's own way. Goes to the very root of the corn. Corn lifts out, root, body and branch in two days. No paring. No dangerous caustic ingredients. No liquids to dry out. No bulky pads or greasy salves. Dr. Hunt's New Corn Cure comes in ready-to-apply plaster form. Trim plaster exact size of corn and apply. More than two applications are seldom necessary for the most stubborn case. Your corn ceases up at once. The soothing penetrating ingredient works without discomfort. In two days you have no corn. This is a doctor's discovery. The result of life-time study.

And a box-full costs you only ten cents. Guaranteed or money refunded. Sold by all druggists and shoe dealers. Or, send ten cents in stamps to American Chemical Company, Sidney, Ohio.

A Famous Runner.
The feats of Ernest Menden in the middle of the last century make the pedestrian feats of the present day look insignificant. He was a man who first came under notice by running from Paris to Moscow, a distance of 1,700 miles, in thirteen days and eighteen hours. In 1836 he ran through Central Asia from Calcutta to Constantinople, bearing dispatches for the East India company. The distance is 5,615 miles, and he accomplished it in fifty-nine days, one-third of the time taken by the swiftest caravan. A favorite employment for him was as the messenger extraordinary of sovereigns. He ran from country to country, bearing letters and dispatches of the highest importance, and always beating mounted couriers matched against him. He never walked. Invariably he took the direct route to his destination, climbing mountains, swimming rivers and guiding himself through forests in a way known only to himself. His food was a small quantity of raspberry sirup.—Pearson's Weekly.

Who Invented Bonds?

No one knows who invented bonds, but whoever he was he was one of the great benefactors of the human race. He made it possible for great loans, aggregating perhaps hundreds of millions of dollars, to be split up into bonds that could be sold to individual investors all over the world, furnishing the money to finance the needs of nations, to found great new industries and to open up vast tracts of territory. We may read in the newspapers that \$100,000,000 has been loaned to Japan by an international banking syndicate, but at the same time comes the announcement of a \$100,000,000 bond issue, the obligation of the Japanese government, secured perhaps by customs revenues and offered to investors in the financial capitals of three or four nations. The \$100,000,000 as a matter of fact has not been loaned by the bankers; it is loaned by the people.—S. W. Straus in National Magazine.

The Terrible Test.

"Darling," cried the young man as he sank at the maiden's feet, "I would do anything to prove my love for you!" "That's what every man says when he wants to win a girl," answered the young lady harshly. "Can't I move you?" panted the desperate Romeo. "Prove me. Put me to the test. Test me, I pray you!" "I wonder," whispered the lady softly to herself, while a blush mantled her pale cheeks. Then suddenly bending over the almost swooning youth who crouched at her feet she exclaimed, "I will put you to the test!" "Ah!" The youth sprang to his feet, exultant, triumphant, and cried aloud to the maiden at his side: "Your test? Your test?" "To marry some other girl," murmured the sweet young thing as she glided backward through the velvet curtains into the ballroom.—Baltimore American.

An Ugly Weapon.

When boxers and fighters came together in the old days of Greece they wore upon their hands the cestus, which was in itself a terrible adjunct to any fighter. But there were sometimes attached to the cestus a deadlier weapon, consisting of a three pronged fork of bronze, known as the myrmex. Classical literature has frequent references to the myrmex, which is described as the deadliest weapon of the ancient pugilist. The right hand was swathed in tough hide, bound in place with thongs and supplemented by small knobs of lead or iron. This was the cestus, to which was affixed the myrmex. Combats in those days were much more brutal and dangerous than those of the modern prize ring. It is easily seen that a single blow of the myrmex might cause death or permanent injury.

King Haakon's Hopeful.

One day Prince Olaf had a little playmate with him in one of the private salons in the palace at Christiania. The visitor climbed into one of the armchairs. "Get out of there," cried Olaf, "that's my father's place!" King Haakon hastened across the room to comfort the little visitor, who looked scared, and in order to reassure him picked him up and sat him on his knee. At this young Prince Olaf became still more enraged. With a stamp of his small foot, he expostulated: "Get out of there, I tell you; that is my mother's place!"—T. P.'s Weekly.

When We Would All Be Missionaries.

A well known agnostic was present at one of Henry Ward Beecher's lectures, and after the address the man presented one of his daughters—a beautiful girl—to Mr. Beecher, saying, "Mr. Beecher, here is a girl who, according to your ideas, is a heathen."

"Well, my dear," said Mr. Beecher, "if all heathens were as pretty as you are we would all become missionaries."

—Ladies' Home Journal.

He Was a Bore.

The young man sat and sat and talked and talked. About 11:30 he sang, "Love, I'm Going Away."

The young lady showed interest for the first time since 8:30. "When do you start?" she inquired.—Louisville Courier-Journal.

DAIRY MEN START COW IMPROVEMENT ASSOCIATION HERE

Preliminary steps were taken Monday afternoon looking towards the organization of a cow improvement association among the dairy men of Licking county, when an enthusiastic group of dairy owners met at Taylor hall, Y. M. C. A. to hear a lecture by Prof. O. Ert of Ohio State University.

Prof. Ert delivered an address to the milk producers, speaking of the poor conditions in this county, urging organizations to improve the quality and quantity of milk production.

The meeting was presided over by C. H. Davis, of the Licking Creamery Co., which is fostering the move to improve dairying conditions throughout Central Ohio. Ben B. Jones was selected as temporary secretary of the meeting.

A second meeting will be held at Taylor hall on Monday afternoon, April 12 at 1 o'clock, when the organization will be completed. Licking county milk producers are urged to attend the meeting and unite in the movement which is sure to be of benefit to them.

H. P. Davis of the United States department of agriculture attended the meeting Monday and told of what had been accomplished in other localities by organization. Poor cows were eliminated from the herds by the method of testing and every unit of the herd was made to produce her share of milk.

At next week's meeting Mr. Davis will again speak to the dairymen and it is expected that Prof. Ert will be present.

Kill the Dandruff Germ

Many men and women troubled with itching dandruff—the germ that brings falling hair or baldness, get the mistaken idea that a hair wash or tonic will give them a heavy long lustrous growth of hair. It's all nonsense. The dandruff germ has his house inside your hair roots and he won't be killed 'till you go under the scalp after him.

"I was troubled so greatly with dandruff, it was a source of very great annoyance. I tried Wildroot about eight months ago and the first two or three applications loosened the dandruff from the scalp and I was able to brush and wash it out of my hair. After that an application once a week after shampooing has kept the scalp free from dandruff. Now I am using the tonic about every two weeks and there is no sign of dandruff returning."

Even the first day's use of "Wildroot" will prove its value for the dandruff falls from the head in veritable showers on combing. Any good, first-class druggist sells "wildroot," which is inexpensive, contains only pure vegetable oils and no acids or alkalis. A bottle will last considerable time and the chemists who make it guarantee perfect satisfaction or money back.

How to Fight Tuberculosis

In a paper read last year before the Beach County Medical Society and published in part in the Louisville "Medical Progress," Dr. J. W. Cathart, of San Antonio, Texas, a physician who has devoted much time to the study of tuberculosis, said: "Since time suits constitute three-fourths of all the material substances of the human body, they must be supplied in the foods or supplemented in mineral preparations. Hence, the natural source of calcium with tuberculosis unchecked, the widespread and unchecked spread of tuberculosis and other preventable diseases is due largely to the deficient (time lacking) conditions of multitudes throughout the civilized world."

Thus from another authoritative medical source comes justification for the use of lime in the treatment of tuberculosis.

Since this is one of the ingredients of Beckman's Alternative, much of the success attending the wide-spread use of this remedy doubtless is due to the combination of this salt in such a way as to render it easily assimilable. It causes no stomach disturbance, and since it contains neither opiates, narcotics nor habit-forming drugs, it is safe to use.

Beckman's Alternative has effected remarkable results in numerous cases of pulmonary tuberculosis, consumption and allied chronic affections of the throat and bronchial passages. In many instances such conditions, apparently, have yielded completely to it.

In case your druggist is out of it, ask him to order, or send direct to us.

Cream Puff Cure.

A young woman teacher in a school in one of the poorer parts of the city was overcome by a sudden attack of illness the other day. She dismissed the class, telling the boys she felt too ill to continue, but hoped to be quite well by the next day. The teacher rested her head on her arms and sat at her desk a few minutes waiting for strength to start on the journey homeward. She was only dully conscious of what was going on about her and did not notice a group of the ragged youngsters gathered by the door in deep consultation.

In a little while she heard some one softly say, "Teacher!" and looked up. It was the raggedest boy of the lot, and he was holding out a paper bag full of something.

"What is it, Jimmie?" she asked. "Somethin' 't eat," replied Jimmie. "But I'm not hungry."

"Yes, you are," insisted the ragged philanthropist, winking at her gravely. "Nobody's sick except when they're hungry. We took up a c'lection 'at got these cream puffs for youse. Eat 'em quick, ma'am, an' you'll feel better."—Philadelphia Star.

The Silence Wager.

Once a Brahman and his wife quarreled acutely over three kol fish. Each wanted to eat two and leave the third for the other. The husband argued that he had fetched them from the bazaar, the wife that she had cooked them. Neither would give way. Then said the Brahmani: "Let us go to bed and see who speaks first. Whoever of us does will have to take the one kol fish." This agreed, they lay down, supperless, and passed the night, the dawn, the morning, in utter silence. The neighbors, alarmed, went in to see if they were dead. They shook them and pulled them about. Still no sound. Then three of them made the funeral pyre, placed the Brahman upon it and applied the torch. Next they lifted up the Brahmani to lay her beside her husband. At that moment the flames reached the body of the Brahman. Unable to keep quiet any longer, he jumped up, crying, "Brahmani, I'll eat the one!" "Then I'll eat the other two," she promptly replied.—"Bengali Household Tales."

Some Indian Precepts.

Ernest Thompson Seton's "The Book of Woodcraft and Indian Lore" contains the teachings of the Indian Chief Wabasha I., from which we quote the following:

"In the day of his strength no man is fat. Fat is good in a beast, but in a man it is disease and comes only of an evil life."

"No man will eat three times each sun if he would keep his body strong and his mind unclouded."

"Bathe every sun in cold water and one sun in seven, under the sweat lodge."

"When your time comes to die sing your death song and die pleasantly, not like the white men, whose hearts are ever filled with the fear of death, so when their time comes they weep and wail and pray for a little more time so they may live their lives over again in a different manner."

Almost Epigrammatic.

This overheard conversation appeals to the weary as nearly epigrammatic. The young people on the seat ahead of us in the homeward bound car the other night talked it out so loud that we couldn't help hearing it, and jotting down a few notes on it.

"So," said the girl, "he said he knew me when I was a little girl?"

"He didn't say anything of the sort," contradicted the man.

"You said he did."

"I didn't."

"Why, then what did you say?"

"I said he said he knew you when he was a boy."

That put such a wet blanket on the conversation that we were able to read our sporting extra uninterrupted for the next several blocks.—Cleveland Plain Dealer.

Bits From Shakespeare.

Users of everyday catchwords are constantly quoting that ubiquitous person Shakespeare. "Dead as a door-nail," "long and short of it," "getting even," "tag-rag," "birds of a feather," "that's flat," "mum," "scarecrow," "solid," "milkop," "loggerhead," "bag and baggage," "a mere song," "dancing attendance," "send him packing," "kill with kindness," "give and take," "an eyesore," "to boot" and "the man in the moon" are all his.

Impertinence.

TO REPRODUCE "THE CHIMES" ON APR. 15

Those music lovers and patrons of the drama who did not get a chance to witness "The Chimes" of "Normandy" when it was produced in this city on March 17th, will now have the opportunity of doing so as it has been booked for the Auditorium on the evening of Thursday, April 15, at which time it will be reproduced for the benefit of the choral society, in order to enable it to keep up its organization, purchase new music, etc.

The recent production given in this city will long be remembered by all who witnessed it for it was pronounced by far one of the best of its kind ever staged in the city. In addition there was the pleasant surprise for every one, the development of much unknown talent. The principals were charming and delightful and the chorus was one of the finest ever heard on the local stage, not barring the professionals.

Director E. P. Gruber has ordered the costumes from New York and the same elaborate arrangements as prevailed March 17th will again be in vogue when the enchanting musical opera will be given on the 15th inst. Those who were not fortunate in witnessing the opera should take advantage of the present opportunity for they will not regret it.

A special orchestra of fifteen pieces will play the scores and all the old principals will participate. It will be brightened by the fact that the newness will have been worn off. The opera is given for a worthy cause.

Seats will go on sale next Monday at 9:30 at the Auditorium box office. Order early and get a choice seat.

For the benefit of babies taken on long railroad journeys a Californian has patented a collapsible berth to be hung on the back of a car seat.

LEGAL NOTICE.

Sealed proposals will be received at the office of the Auditor of the City of Newark, State of Ohio, until 12:00 o'clock noon of Monday May 10th, 1915, for the purchase of bonds of the said city in the aggregate sum of \$240,000.00, all dated April 1st, 1915, payable \$10,000.00 on the 1st day of April 1918, and \$10,000.00 on the 1st day of April of each year thereafter up to and including April 1st, 1931, each bond being in the sum of \$1,000.00 and bearing interest at the rate of 4 1/2 per cent per annum, payable semi-annually, issued for the purpose of eliminating grade crossings at the intersections of the right of way of the Baltimore & Ohio Railway Company and the Pittsburgh, Cincinnati, Chicago & St. Louis Railway Company, and in accordance with a certain ordinance of the said city, entitled, "Ordinance No. 244 to Amend Ordinance No. 235, to Issue Bonds for the Purpose of Eliminating Grade Crossings at the Intersection of the Right of Way of the Baltimore & Ohio Railway Company and the Pittsburgh, Cincinnati, Chicago and St. Louis Railway Company and First, Second, Third, Fourth, Fifth, and Sixth Streets in the City of Newark, Ohio," passed on the third day of March 1915.

All bids must state the number of bonds bid for and the gross amount of bid and accrued interest to day of delivery; all bids to be accompanied with a certified check, payable to the Treasurer of said city for two per cent of the amount of bonds bid for, upon condition that if the bid is accepted the bidder will receive twenty per cent of such bonds as may be issued as above set forth within ten days from the time of award, said check to be retained by the said city if said condition is not fulfilled.

The City of Newark, Ohio, reserves the right to reject any and all bids. Bids should be sealed and endorsed, "Bids for Elimination of Grade Crossing Bonds."

ACRE LOTS.

I have ten choice acre lots on Racoon avenue, and Sixteenth street, between Granville and Church streets. Will sell single or as a whole. The land is good, rich soil, perfect for gardening and truck raising. Ideal for profitable suburban home. Six acres have already been sold off of this track of land. Ask these owners what they think of their purchase. Look them over and buy now, even though you are not ready to build, a crop on them will go a long way toward paying for them this season. Price right, you can't equal them.

It is difficult to tell whether the new evening gowns are intended to go to bed in or to wear to a dance.

Dr. Wiley claims a woman can be kissed on the cheek without injurious results, but not if the neighbors are looking.

If that new process reduces gasoline to three cents a gallon, will your best girl any longer be satisfied with an automobile ride?

Many people regard with hostility the man who sets an uncomfortable example to the whole neighborhood by cleaning up his back yard.

The Mexicans can't expect to fire off much artillery at Mataronias until a sufficient number of Americans kindly get in range over the line at Brownsville, Tex.

If the 50th anniversary of the surrender at Appomattox had only come on a Sunday, it would have been gloriously celebrated in many places by a double header ball game.

It was claimed some time ago that the United States navy had only one submarine that could dive. The F-1 has proceeded to demonstrate the falsity of this charge by diving to the bottom and staying there.

Continental Sympathy.

President Wilson and Ambassador Naon of Argentina have been exchanging compliments. Mr. Wilson said, at a luncheon in his honor given by Dr. Naon, that there is a growing sympathy and understanding between the United States and the other nations of this hemisphere. The Argentine diplomat responded in similar terms. Let it be hoped that these fine phrases do represent a real sentiment of continental unity.

Apparently the reason for the courtship of South America has been in the past that our manufacturers might sell more farm machinery, steel, and boots and shoes south of the equator. This is of course a laudable ambition. But it is not strange that our southern neighbors do not warm up very rapidly to any dollar bill flirtation.

Many Englishmen still think that pointed and war whooping Indians are yet roaming the prairie not far from Chicago. Similarly our people look at South America as a country of revolutions, fever swamps, and half breeds. Actually the great cities of the southern hemisphere are in the fore front of the world in their beauty and convenience. Science, art, and business enterprise are

It's a Far Cry to Aug. 1, 1914.

Chicago Herald.

Nothing illustrates better the distance that this country has traveled since last August than the announcement from New York that the governing committee of the New York Stock Exchange on Wednesday abolished the minimum trading prices, leaving all securities traded in to find their natural level.

The fears during the early weeks of the war that Europe would dump our securities on us in quantities far beyond our power to absorb—thus creating panic and financial havoc on all sides—now seem like a dream. The complete closing of the stock exchange has already taken its place as a detached historical fact, without present significance.

And now even the later precaution of minimum trading prices—adopted Dec. 15 in order to prevent a rush to unload these securities in the reopening of the stock exchange—has gone to join the more drastic provision that preceded it. It is no longer necessary. The country has found its financial moorings and feels confident of its position.

The removal of this minimum trading price is, of course, a mere result of vast and beneficial causes.

Behind it we see the substantial evidences of reviving business and prosperity. Our trade balance is growing to enormous proportions. America has become the world market and the nations are eager to buy its products.

Truly it is a far cry to Aug. 1, 1914! Americans, one and all, have reason to be thankful for it and to face the future with renewed courage and confidence.

President Wilson and Children.

(Omaha Bee.)

One of the touching little bits of "human interest" in the daily news is the letter received by the president of the United States from a little Belgian girl and endorsed by her brother, thanking him for the bread they have lately eaten. To this the president replies in a characteristic manner, giving his little correspondent a word of cheer and expressing the sympathy all Americans feel for the little ones who suffer. It is the touch of nature that makes the whole world kin. While other presidents have shown a similar quality, no other attribute of President Wilson becomes him more than this ready sympathy with the little folks. In this he speaks for the true type of American citizen, to whom nothing is more appealing than childhood.

TAKE A LOOK IF YOU HAVE TIME

Only "R" Difference.
 When all is said and done, you see, the soldier has it rather hard. For small the difference seems to be "Twist battle-scarred and battle-scarred."

Jess Willard's father is a native of Ohio, his mother having been born in Kentucky while Jess himself first saw the light in Kansas. This certainly makes Willard "O. K."

The Advocate of course was the first to hand the result of the big fight to the people. The Associated Press handled the news from Cuba in admirable form and further demonstrated its great efficiency.

Cigar dealers say that "Havana rappers" were very popular with the trade yesterday afternoon. And they're still rapping Johnson.

As soon as the big battle was over yesterday rain fell in Newark. Tears of sorrow or happy weeping, which?

When Slim Heckle gets drunk he goes to sleep, but most drunkards carry on publicity campaigns.

About the only excuse for the tattooed man is that the disfigurement which he has subjected himself brings him a living.

Spirit of the Press

Destructive Salvage.
 A Georgia woman fired five bullets at her husband, a physician, the last aimed at killing him. "To save him from other women," they would not let him alone, she said, and he could not resist them. Whether her frenzied act was due to a hallucination or she had some foundation for her belief, the idea of saving him by killing him must of course seem preposterous. Yet there was a precedent a few years ago when a woman killed her fiancé "to save his soul." Nor are women exceptional in these crazed jealousies. These two cases stand out because of the attempt to offer a reason for the act. Innumerable more cases have been recorded where men, rejected, have slain women in a selfish determination to prevent them wedding anyone else. But male slayers never take the trouble of explaining that they slew to "save." It is to be noted, too, that in both instances these women had a claim or right at stake. When men kill, it is most frequently because they have been repudiated. It is a curious contribution to the psychology of the sexes.

Worth the Price.
 We have small faith that the London doctors will be able to check the spread of grip by forbidding returning soldiers from kissing their sweethearts. It is quite likely that the soldiers who have served in Belgium trenches have contracted grip, catarrh and sore throat. But if the spread of these diseases in London comes from that source, we suspect that it will go right on. A thrifty host was once given a chill in the pocket nerve by observing the avidity with which his guest ate butter. The host remarked that butter cost 25 cents a pound. Thereupon the guest helped himself to another hunk, tasted it critically and replied with conviction: "Well, its worth it!" That, we suspect, will be the

attitude of English young women toward the danger of grip infection from kissing soldiers. — Brooklyn Eagle.

Eight Months of War.
 The great war has now raged for eight months. Four million men have been killed, crippled for life, wounded or stricken with disease. Many men, women and children are now living in cellars, barns, chicken houses and dog kennels. Children have been mutilated or starved to death. Thousands of square miles of territory have been laid waste. Nearly ten thousand million dollars have already been expended in the work of devastation. The war is costing fifty millions dollars a day for military expenses alone, taking no account of the loss due to the stoppage of business and industry. And the war has not yet begun, says Lord Kitchener.

It now seems likely that the next few months will witness the most stupendous human holocaust known to history. Yet who dares prophesy that even then it will not end in a stalemate, such is the advantage of modern defense over offense.

In the face of this doom of civilization is the rest of the world to sit silent and supine waiting for the conflagration to devour itself? Almost anything is better than doing nothing. What is the duty of the United States? Are we or are we not our brother's keepers? —New York Independent.

Not Counting Bank Books Either.
 New York City points with just pride to the fact that during the past year 12,000,000 books were used by the people, an average of over two books to every man, woman and child. The cost to the city was about eleven cents for each book used, and less than twenty-five cents per capita. The children of the city took out the astounding number of 3,580,000. What a blessing to the millions of the poor, who have no books, is the public circulating library! There were books, in olden time, written, of course, by hand. The apostle's desire for books is thus expressed: "The cloak that I left at Troas with Carpus bring with thee, and the books, especially the parchments." —The Christian Herald.

Civil Service Legislation.
 President Hoskins of the civil service commission oppose the Barnes-Moore civil service bill, now before the legislature, and he is right about it. That bill would prove a great detriment to the cause of civil service in this state. It ought not to pass. There is a division of sentiment upon the bill—on one side are the politicians and on the other side the people. The public service ought not to be political and this bill would make it so, especially the Barnes part, which might be entitled a bill to abolish the civil service. In attempting to perfect the present civil service system, the legislature is making a hash of it. Our civil service law might be improved, but it will sadly injure it. Why doesn't the legislature call in Mr. Hoskins or some sensible man, whose heart is in civil service, and consult him about the new service law. The ordinary politician does not know any more about civil service than he does about sanskrit. He can't get his eyes off of the "provisions" in the bill. —Ohio State Journal.

One Injustice.
 A returning critic complains that war, once the profession of gentlemen, "has been degraded to machine slaughter." One ugly injustice of this war is that too many of the "gentlemen" who caused it are keeping away from the slaughter. —Philadelphia Ledger.

Extraordinary Incident.
 One of the extraordinary incidents of the times was the sinking the other day of a merchant ship that had neither been torpedoed nor come in contact with a mine. —Kansas City Journal.

Quite Fit.
 It would have been utterly foolish for any other nation than Russia to have captured Pzemysl, for no other nations could ever have told anyone the name of the place it had captured. —Sioux City Tribune.

THE WAITING PLACE.

In this sad world with griefs beset, the more we know, the more we're hurt. Misfortunes seem to keep the trail of those who raise the loudest wail. The business men in camp arrayed, who own big palaces of trade, and are their millions y the score, don't ever often raise a wail. If things go wrong they do not sigh, or show the world's streaming sea. They do not divert bad luck away from the store, as the poor man does, who red hot bartering the store, all sorts of goods, and a merchant in who's been there a while, who has a drubbing from those who've deceived, is always in place, has always a man who must not be humiliated, and must sound the alarm, and keep a firm

DYSPEPSIA OVERCOME

Tone Up the Stomach With Hood's Sarsaparilla.

When you have dyspepsia your life is miserable. You have a bad taste in your mouth, a tenderness at the pit of your stomach, a feeling of fullness, headache, heartburn, and sometimes nausea.

Dyspepsia is difficult to cure— that is, that the word means—and the only way to get rid of it is to give vigor and tone to the stomach and the whole digestive system.

Hood's Sarsaparilla, sold by all druggists, is the one medicine which acts on the stomach through the blood and also directly. Its beneficial effects are felt at once. Improvement begins immediately.

Hood's Sarsaparilla purifies the blood, makes the rich red blood that is needed for perfect digestion, and builds up the whole system. No other medicine can take its place.

Most elaborate was the banquet, and delightful in every detail were the appointments when the Licking County Shrine, A. A. O. N. M. S., gave a dinner-dance in the Masonic Temple on Monday evening.

The decorations were effected with Shrine emblems and the American flag and the entertainment feature was under the direction of the following, Messrs. J. F. Cherry, M. J. Reese, George Hermann and Dr. W. H. Knauss.

The menu was elaborate, consisting of nine courses, and was served by the Eastern Stars and arranged by Messrs. Warren Suter, C. N. Browne, and J. P. Lahey. The menu follows:

Fruit Cocktail
Olives Radishes
Midget Pickles Salted Almonds
Clam Bouillon en tasse
Broiled Spanish Backlet matre de hotel
Julienne Potatoes Cucumbers
Tenderloin of Beef Larded
Mushrooms
French Peas New Potatoes
Maraschino Punch

A Sure Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

On Friday evening Miss Lucille Elliott very delightfully entertained a few of her friends at her home in Bolton avenue, it being her birthday anniversary. The evening was spent in games and music. At ten o'clock the guests were invited to the dining room where the hostess, assisted by Mrs. Edna Bradley, served a two-course luncheon. The table was prettily decorated, the color scheme being yellow. The place cards were drawn by yellow ribbon from an Easter basket in the center of the table. Carl Danner, young son of Mr. and Mrs. Paul Danner of Woodside, was operated upon at the City Hospital Monday for mastoiditis and removal of tonsil and adenoids. It is the little one's second operation for mastoiditis. He is a grandson of Supt. A. J. Crilly of Cedar Hill cemetery.

Valentine Baker, father of Councilman Philip Baker, is quite ill at his home in West Main street. He is suffering from kidney trouble and sciatic rheumatism. He is past 82 years of age.

GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as MUSTEROLE

But the old-fashioned mustard-plaster burned and blistered while it acted. You can now get the relief and help that mustard plasters gave, without the plaster and without the blister.

MUSTEROLE does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Just massage MUSTEROLE in with the finger-tips gently. See how quickly it brings relief—how speedily the pain disappears.

And there is nothing like MUSTEROLE for Sore Throat, Bronchitis, Tonsillitis, Croup, Stiff Neck, Asthma, Neuralgia, Headache, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of the Chest (it often prevents Pneumonia).

At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50. Be sure you get the genuine MUSTEROLE. Refuse imitations—get what you ask for. The Musterole Company, Cleveland, Ohio.

PROTEST

MADE BY GERMANY AGAINST SEIZURE OF ODESWALD AT SAN JUAN

United States Officials Believed Liner Was Carrying Supplies to German Warships.

[ASSOCIATED PRESS TELEGRAM] Washington, April 6.—Germany has protested to the United States against the detention of the Hamburg-American liner Odenwald at San Juan, Porto Rico under the neutrality regulations. The German embassy today asked the state department to investigate the action of American port authorities in preventing the Odenwald from leaving. The embassy issued a statement giving its version of the affair.

United States officials believed the Odenwald was about to violate the neutrality of the United States by carrying supplies to German ships at sea or was preparing to outfit on the high seas as a converted cruiser. They detained her under the neutrality resolution passed by congress and a libel against the ship, under the law, already has been filed by the United States attorney at San Juan.

OHIO'S SHARE RELIEF WORK WAR SUFFERERS

Capt. A. H. Heisey who is a member of the executive committee of the Ohio Commission for the Relief of European War Sufferers, was furnished with a list of the number of carloads of provisions and other supplies sent from Ohio to date as follows:

Lucas 15, Cuyahoga 2, and one from each of the following: Darke, Richland, Morgan, Guernsey, Champaign, Licking, Ross, Erie, Hardin, Pickaway, Lake, Highland, Summit, Jefferson, Knox and Butler.

Three carloads were made up in broken shipments, and forwarded from the state organization, as follows: Greene, Warren, Williams, Miami, Delaware, Fayette, Madison, Fulton, Preble and Morrow. A car is now being loaded at Londonville, Ashland county.

Provisions are being prepared for shipment in the following counties: Fairfield, Erie, Auglaize, Darke, Tuscarawas, Mercer, Hancock, Ashland, Allen, Ashtabula, Athens, Henry, Meigs, Gallia, Huron, Morrow, Union, Perry, Logan, Marion, Seneca, Shelby, Stark, Trumbull and Wood.

At the last meeting of the Executive committee, the secretary was instructed to continue the work, and to organize all counties in the state, excepting those embracing the coal districts, where strikes now exist.

Captain Heisey who is much interested in the relief work and who has done his full share of it, hopes that Licking county people will so far as they can continue to lend assistance.

W. H. ANDERSON IS PRESENTED WITH A HANDSOME CHAIR

Wm. H. Anderson, who was succeeded by Lt. S. C. Campbell as tax assessor Monday, was presented with a handsome leather chair, by the clerk in his office, during the presentation speech being made by Deputy County Treasurer W. H. ...

During his incumbency of office Mr. Anderson has made a splendid official and gave eminent satisfaction to all with whom he had business relations. His work has been highly commended by the state officials. Mr. Anderson has not decided just what he will engage in at the present time.

DARING

EXPLOIT OF FAMOUS FRENCH AVIATOR WHO BROUGHT DOWN GERMAN

Not Only This but He Drove off Three Others That Had Been Dropping Bombs.

[ASSOCIATED PRESS TELEGRAM] Paris, April 6.—Another daring exploit has been added to the long list of those successfully carried out. The report of the incident says French aviator, who is reported to have attacked and brought down a German Taube, near Saint Menehould, while he was alone on patrol duty April 2.

by Adolph Pegoud, the famous pilot when Pegoud saw the German approaching, he flew rapidly toward the hostile aircraft and sent it to the earth with a few well-placed shots. Pegoud then landed beside the Taube and took prisoner the German pilot and observer, neither of whom was injured.

Earlier in the same day Pegoud is reported to have driven off three German aeroplanes, one of which had dropped nine bombs on a railroad station.

Pegoud who first gained fame in 1913 as the originator of the feat of flying upside down in an aeroplane, was awarded the French military medal early in March for services rendered the army during the war.

NARROW ESCAPE OF NEGRO FROM LYNCHING PARTY

[ASSOCIATED PRESS TELEGRAM] Lewisburg, W. Va., April 6.—John Stewart, a negro, who last Sunday, killed George J. Shires, chief of police of Ronceverte, W. Va., and was later captured at Covington, Va., narrowly escaped lynching early today. Stewart was brought here yesterday and placed in the county jail. Soon after midnight the sheriff learned that a mob had formed at Ronceverte and reinforced by men from the lumber camps near White Sulphur Springs was on its way to Lewisburg. He hurried Stewart into an automobile and drove out of town as the mob entered by another road. Nothing has since been heard of the sheriff and his prisoner, but it is reported here that he is still driving around the country, waiting until the feeling against Stewart quiets down or until he can get a favorable opportunity to take him to Charleston.

AUTO PLUNGED THROUGH BRIDGE; THREE DROWNED

[ASSOCIATED PRESS TELEGRAM] Newark, N. J., April 6.—Three young men, members of the Mount Clair academy alumni association, were drowned early today when an automobile in which they were riding with four others plunged through an open drawbridge into the Passaic river.

Gordon Knapp, of East Orange, was one of the victims whose name had been ascertained this forenoon. The others were held submerged by the car.

The men were returning home from a dinner in New York and were given a ride in the automobile by William J. Ritter, Jr., who was saved with three others. A gateman at the drawbridge was knocked into the water and was rescued but suffered severe injuries.

From a list of the occupants of the car, the police later fixed the identity of the two missing men as Clarence Stanton and Eugene Stevens, the latter of this city. Stanton's home was in northern New Jersey.

OLD GLORY, ORDERED DOWN BY MEXICAN, PUT BACK BY U. S. CAPTAIN.

[Associated Press Telegram] San Diego, via wireless U. S. S. Colorado, Magdalena Bay, April 6.—General Serrano, of the Carranza forces, who arrived Friday at Acapulco, and ordered the captain of the steamer Benito Juarez to haul down the American flag. Captain Hassbrouck of the gunboat Yorktown, had the flag again hoisted by a marine guard. Serrano then returned aboard the Korrigan and sailed hurriedly from Acapulco. The authorities have approved of the action of Captain Hassbrouck and no complications resulted. General Serrano made a statement that he was acting on his own authority. The vessel is now anchored close to the Yorktown. The Benito Juarez had been detained at Acapulco by order of General Carranza since March 18, pending the settlement of its registry.

SONG AND DRAMA CLOSES THE HIGH SCHOOL COURSE

The Oxford Company in song and drama will close the 1914-1915 lecture course under the auspices of the Newark high school Thursday evening at 8:15 o'clock at the High School Auditorium. The company is composed of five men and women, each selected for his or her merit in a particular line. The entertainment which they offer is refined in every respect and sufficiently popular to appeal to those whose tastes in music and drama do not run altogether to the classical.

The company offers as a part of its program practically the whole of the opera, "The Mikado," and press comments on this feature of the entertainment indicate that the work is beyond criticism.

The other part of the program is made up of selections such as "The Bridal Chorus" from the "Rose Maid," Debussy's "Siciliana Etude," Debussy's "Love Trillity," etc. A feature of the program is the well selected song cycles, usually popular with lovers of children's songs.

Some good seats still remain aside from the season tickets sold at the beginning of the course. Information regarding these tickets can be secured by communicating with the high school.

A Useful Fly Poison

A USEFUL fly poison is prepared as follows: Two tablespoonfuls of formalin are mixed with a pint of equal parts of milk and water. This is poured into saucers and a piece of bread placed as an island in the center for flies to alight upon. The flies are attracted to the solution, poisoned, and the formalin possesses also disinfectant properties as it evaporates.

For the rapid destruction of flies within houses the most useful procedure is to burn pyrethrum powder (Persian insect powder). All doors and windows must be tightly closed, and after the powder is burned the flies must be swept from the floor and burned, as some may be stunned but not killed by the fumes.

Beware of Ointments for Catarrh

Catarrh that contains mercury as a mercury will seriously damage the whole system and completely derange the mucous surfaces. Such ointments should not be used except on prescriptions from reputable physicians as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is sold by druggists. Price, 75 cents per bottle. Take Hall's Family Pills for constipation.

Council Prohibits Billiard And Pool Games on Sunday; No Action On Light Problem

City Council Monday night passed an ordinance prohibiting the playing of pool or billiards on Sunday or between midnight and 6 a. m. on any other day. The measure was passed after some little opposition on the part of some of the members of council, which, they explained later, was due to a lack of full understanding of the provisions of the bill.

Mr. Seward in a speech declared that he would not favor any bill that would close pool rooms where cigar stores and news stands were operated in connection, unless it applied to all pool rooms alike, but without application to the cigar and news stores.

Mr. Payne opposed any measure that would prohibit the playing of pool or billiard games in club rooms. When Solicitor Norpell gave it as his opinion that the new bill would not prohibit games in the club rooms or close the cigar stores in connection with pool rooms, Mr. Payne and Mr. Seward reconsidered their earlier action and voted with those who supported the measure.

Council also took notice of the new schedule of rates announced by the Automatic Telephone Company when Mr. Seward offered a resolution instructing the city solicitor to bring suit to restrain the company from charging what he claimed was the advanced rate. Mr. Adams moved that the resolution be referred to the law committee so council could make sure that there had been any violation of the provisions of the company's franchise. It was so referred.

The promoters of the new People's market asked that that portion of the alley crossing the canal property between Third and Second streets be vacated to allow the company to proceed with its plans of construction. The petition precipitated a discussion regarding the matter, it being the sentiment of some of the councilmen that the city should not be expected to present free of charge any city property to private parties. This matter will be definitely settled at the adjourned meeting Thursday night.

To settle any doubt which might arise regarding the issue of bonds for the purchase of motor fire and police apparatus, two new ordinances were passed Monday night, fixing a denomination of the bonds and declaring the purpose for which they were issued.

Other matters of more or less importance were acted upon, the session continuing until after 10 o'clock.

Mayor Bigbee, Auditor Dodd, Service Director Christian, Treasurer Frye and City Engineer Wells were present, in addition to all members of council. The roll call and reading of the minutes were disposed of quickly.

The street committee reported on several matters referred to it at last meeting. It recommended the opening of Central avenue, the paving of Gay street, the construction of a sewer in and paving of Chestnut street, and the sale of an alley in the Wehrle addition.

The law committee recommends that the sewer assessment against the

Mehr property in Fourth street, be reduced to \$30, and that Engineer Hetmer be paid \$125 for services as electrical engineer.

Mayor Bigbee's monthly report showed the following collections for the month of March:

City cases:

Fines\$76.00
Licenses 202.50
Other collections 76.00
State cases:

Fines\$217.00
Mayor's fees 42.00
Officers' fees 21.00

The canvassing commission of the board of elections reported that the official count in the recent bond issue election was 1932 for and 1088 against, the proposition.

Clerk Woodward reported that he had \$25 of the cemetery endowment fund and asked instructions for its investment.

Pete China and others asked that an alley in "Oklahoma" be vacated. Waivers of property owners accompanied the petition.

A petition from owners of the canal land where it is proposed to locate the new market house, asking that that part of the alley intersecting the old canal property be vacated. Waivers of interested property owners accompanied the petition. Those interested in the project urged prompt action, as the option on the land expires Friday of this week.

Councilman Payne explained the attitude of the street committee by saying that the city wished to acquire a parcel of canal land near the Licking river and that city was asked \$1,000 for the property. Mr. Payne did not see the justice of presenting city property to private parties while other private parties sought to charge the city \$1,000 for a tract of equal size. Mr. Sigler and Mr. Smith and Mr. H. Scheidler of the Market House company, addressed council in support of the petition. The petition was received and filed.

F. M. Black and others petitioned council to accept the dedication of Merchant street.

Gay street property owners, headed by Stephan Davis, protested against the proposed paving of Gay street. The petition was referred to the city engineer.

A communication from Mary Elsworth Fuller which she asked to be held in strictest confidence, was read by Clerk Woodward. It criticized in no uncertain terms certain fortune tellers, clairvoyants, spiritualistic mediums and others and urged interference by the police. The letter was referred to Mayor Bigbee.

The Carpenters' and Boilermakers' unions in a letter to council, protested against any division of hospital funds. Both letters were referred to the special hospital committee.

An ordinance by Mr. Rexroth to vacate an alley in "Oklahoma" and another by Mr. Ashbrook to vacate an alley on the canal property were read for the first time. Both were referred to the street committee.

An ordinance by Mr. Payne to transfer \$4,000 from the general fund to the public safety fund was passed on suspension of rules.

An ordinance by Mr. Adams to re-

to apply it than it does to read this. It will dumbfound you, especially if you have tried everything else for corns. Two drops applied in a few seconds—that's all. The corn shrivels, then comes right off, painlessly, without fussing or trouble. If you have ever made a fat bundle out of your toe with bandages, used thick, corn-pulling cotton rings, corn-pulling knives, corn-teasing plasters—well, you'll appreciate the difference when you use "GETS-IT." Your corn agony will vanish. Cutting and gouging with knives, razors, files and scissors, and the danger of blood poison are done away with. ulate pool and billiard games, prohibiting the games in a public billiard or pool room on Sunday or between midnight and 6 o'clock on any other day of the week, was introduced. A motion to suspend the rules and pass the measure was lost when Mr. Baker voted no, and Mr. Seward and Mr. Payne refused to vote on the motion to suspend the rules. Before the meeting adjourned, Mr. Seward moved to reconsider the action taken on the motion to suspend the rules. "I understand from the reading of the bill," said Mr. Seward, "that it closed the pool rooms. Some of them have clear and news stands in connection and unless all such places are closed I would be opposed to the measure."

His motion to reconsider was carried and the bill was re-read. Councilman Baker, who voted no on the original motion to suspend rules, voted no on the reconsideration.

On a motion to suspend rules, Mr. Seward and Mr. Payne voted with the affirmative and Mr. Baker continued to oppose the move. The motion carried and the measure was read the second and third time and passed, all voting aye except Mr. Baker, who again voted no.

Two ordinances by Mr. Payne fixing the denomination of the bonds for the police and fire department motor apparatus and correcting certain deficiencies to previous legislation, were passed on suspension of the rules.

A resolution by Mr. Adams, directing the engineer to prepare plans for the Chestnut street sewer, was accepted.

A resolution by Mr. Payne instructing the engineer to prepare plans for the paving of Gay street was adopted.

A resolution by Mr. Payne authorizing the service director to draw a voucher on the city auditor for the new motor vehicle recently purchased

by the service department. The resolution was adopted on suspension of rules.

Mr. Payne offered another resolution authorizing the council clerk to invest \$25 in a certificate of deposit at 5 per cent interest. The resolution was adopted on suspension of rules.

A resolution by Mr. Seward, directing the city solicitor to bring suit against the Newark Telephone company, restraining the company from increasing the rates beyond that allowed in its franchise. Mr. Seward moved to adopt the resolution on suspension of rules. After some discussion Mr. Adams moved to amend the motion to refer the resolution to the law committee. His motion was adopted and the resolution was so amended.

Mr. Adams' resolution to appropriate property to open Central avenue from Hoover to Wallace street, was adopted on suspension of rules.

A resolution by Mr. Payne to pave Luena Vista street was adopted on suspension of rules.

Mr. Rexroth's resolution to pave Kilber avenue was withdrawn when read the third time.

Before adjournment, several matters came up under the head of miscellaneous business. Mr. Rexroth moved that a petition sent to council in 1912 to pave Park avenue, be referred to the street committee. He explained that this petition was held up pending the construction of a sewer and as this work had been done, the residents were anxious to have the street paved.

The special committee having in hand the proposed division of the hospital funds and another special committee having in charge the improvement of the court house park, each asked for more time which was granted.

Councilman Knauber urged that the city proceed to borrow \$2,300 which was authorized several years ago for construction of sidewalks ordered by council. There remains the sum of \$1 from the \$2,200 borrowed in the past.

Through Councilman Adams, Broad street residents asked that the city establish a grade on that street.

Council adjourned until 7:30 o'clock Thursday evening when action will be taken on the petition to vacate the alley wanted by the People's Market company on the canal property. As it is an adjourned meeting, a number of other matters will be considered which were not closed up at Monday night's session.

Notes and Comments.

One hundred and twenty-two visits were made by teachers to the homes of children and 680 such visits have been made thus far during the year. This is commendable work and I regret that there are a number of teachers who have not done any of it. It is not impossible for a teacher to make a short call upon every family represented in her school. I have talked to many teachers who make it a rule to call at the homes of children and all report that they are pleasantly received and that parents show an appreciation of this interest on the part of teachers.

Two hundred and thirty-nine parents and others visited the schools during the month. 101 visits were made into various school rooms by the Superintendent of Schools. Those in charge of the schools are glad to see many parents interested sufficiently to visit the schools because this is the best way for parents to know the real work of pupils and teachers.

A glance at the above statistics will show the attendance and punctuality of children to be very good. Every item shows some improvement over the same month last year.

On Friday afternoon of this week Arbor Day exercises will be held in every school building of the city. These exercises will consist in readings, in the distribution of flower and vegetable seeds, the planting of shrubbery or trees upon the school grounds and playgrounds, and some time will be devoted to a cleaning up about the school property where necessary. Parents and friends are invited to these exercises by invitations sent out by teachers and pupils, mostly prepared by the pupils themselves.

We are all glad that Newark won its annual debate with Mt. Vernon, that the High School Minstrel entertainment was so great a success, and that the children's entertainment under the direction of Mrs. Mitchell will enable the public library to add many volumes to the children's department.

BAD COLD? TAKE CASCARETS EOR BOWELS TONIGHT

Get a 10-cent box. Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry off all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your liver clear, stomach sweet and your liver and bowels regular for months.

Kill the Winter Fly; Do Your Swatting Now; Don't Delay

Do your fly swatting early. That's the way Miss Jean Dawson, director of the Cleveland anti-fly campaign, modified the familiar slogan to accomplish such

miraculous results for her city. To kill one winter fly is better than to kill a million later in the summer, according to Miss Dawson, and her work in Cleveland proves that she knows what she is talking about.

No matter if it is still cold weather and only one fly has been brave enough to show itself, the time to start the war against the flies is now. Those that live through the winter are few, and that's just the reason efforts made now can be so effective. Perhaps there are many people who have not seen a fly yet this year, but there are flies and plenty of them, as the millions will prove later unless the few are destroyed.

When Dr. Dawson—for this woman anti-fly general can write Ph. D. after her name as professor of civic biology at the Cleveland Normal school—began talking about swatting the fly the people of Cleveland thought her remarks were a little unseasonable.

"We can't find any flies," they said.

Dr. Dawson told them to look in the cracks and crevices of their attics and basements and stables and sheds. They looked. There were a few flies.

"But why trouble ourselves about a few half dead insects?" they objected.

Then came Miss Dawson's astounding figures in proof of her plan. The children and grandchildren and later descendants of a pair of flies breeding from early spring to late fall can be numbered only by using a string of twenty-one digits, she said. The number she gave was 191,040 quadrillion flies, enough to cover the entire earth forty-seven feet deep. Of course the flies, like human beings, are troubled with a high death rate, especially of infants, and no mother fly has ever been able to have all her eggs hatch into flies, which in turn reared unbroken families.

Well Tempered Living.

The statistics of insanity show that the minds of men and women are often made aberrant through the steady drive of environment, in which the simple life and the spurring city life are equally at fault. The figures show the per capita of insanity differs little in city and country. Rural solitude and the abnormal life of the city are alike responsible for mental diseases. It is as bad for man to be too much alone as it is for him to be surrounded by perverted life. The history of the race, the inquiries of investigators and the judgment of specialists in the diseases of mind and body tell us that the well tempered life, void of excesses, is the plane upon which men and women best endure in mental and bodily health, a temperance of thought and a temperance of action in an environment in which the individual is neither submerged by human society nor detached from it.—Seattle Post-Intelligencer.

Some Odd Wills.

One of the oddest documents of the will kind known was that of Queen Austrigunda, consort of King Goutram of Burgundy. The dying princess on joined upon her husband to stay and bury in the same grave with her the physicians who had attended her. An other will was that of a husband who forbade his wife's marrying on pain of his returning to haunt her. This is quite different from that of a woman who instructed her executors to seek out "some nice, good, pretty girl" who would make an affectionate second wife to her spouse.

HAVE DARK HAIR AND LOOK YOUNG

Don't stay gray! Nobody can tell when you darken gray, faded hair with Sage Tea and Sulphur.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a sponge or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant. Agents Hall's Drug Store.

SALTS FINE FOR ACHING KIDNEYS

We Eat Too Much Meat, Which Clogs Kidneys, Then Back Hurts and Bladder Bothers You.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; water drink which everybody should make a delightful effervescent lithia-drink now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache, yawning, snuffling, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.

Some Forms of Rheumatism Curable.

Rheumatism is a disease characterized by pains in the joints and in the muscles. The most common forms are: Acute and Chronic Rheumatism, Rheumatic Headaches, Sciatic Rheumatism and Lumbago. All of these types can be helped absolutely by applying some good liniment that penetrates. An application of Sloan's Liniment two or three times a day to the affected part will give instant relief. Sloan's Liniment is good for pain, and especially Rheumatic Pain, because it penetrates to the seat of the trouble, soothes the afflicted part and draws the pain. "Sloan's Liniment is all medicine." Is Coffee After Your Job?

The average cup of coffee contains about 2½ grains of caffeine, a poisonous drug that handicaps the efficiency and chances for promotion of many bright men and women.

Read This Letter

"Down at the Junction," writes a railroad man, "Where I am employed as Telegraph Operator and Towerman for a busy railroad, where every second counts and where I hold the lives of the entire train crew and passengers in my hand, I found coffee was making me dull and exceedingly nervous. "My wife told me about Postum. I tried it and liked it. I never drink anything else now. I have a tin of Instant Postum in my pack. I feel fine, my brain is quick and active and there's no delay at the Junction while I'm on duty. I really think coffee would have put me out of a job if I hadn't quit it for Postum."

If coffee is crimping your prospects, try a change to

POSTUM

Made only of selected wheat and a small per cent of wholesome molasses, Postum contains nothing harmful or injurious, but is, on the contrary, healthful and invigorating.

Postum comes in two forms: Postum Cereal—the original form—must be well boiled, 15c and 25c packages; Instant Postum—the soluble form—made instantly in the cup with hot water, 30c and 50c tins. Both kinds are equally delicious, and cost per cup about the same.

GIRLS! GIRLS! YOU MUST TRY THIS! DOUBLES BEAUTY OF YOUR HAIR

Immediate? — Yes! Certain? — That's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

Howe's Travel Pictures.

For real novelty and wholesome amusement, the animated cartoons that are always one of the many distinctive features of Lyman H. Howe's Travel Festival, are in a class by themselves. Nothing like them may be seen elsewhere as they are conceived and executed exclusively for Mr. Howe by his own staff of artists who do nothing else. They invariably afford comedy—real comedy, too—that is in diverting contrast to the more dignified views of mountains, cities, and seas. In the new program that will be presented at

Mr. Howe has presented hitherto. The travesties of the serious subjects are of the most amusing nature imaginable. They are a revelation of the tricks photography can play at the expense of vision and human perception, and the results achieved would indicate that several senses need to be added to those now classified as the five special senses.

Of course the new program includes numerous other noteworthy features such as a descent into the crater of Vesuvius where spectators peer down into a vast abyss of boiling lava. Then there is a thrilling ride on a runaway train. This, too, is a descent, but at an appalling rate of speed down the mountain side and around curves—the train increasing in momentum at every foot until spectators are transfixed in suspense as to just how such an eventful trip will end. 25c, 35c, and 50c.

25 Years Ago

(From Advocate, April 6, 1890.)
Mr. M. C. Clark, employed in the machinery department of the B. and O. shops, while working at his lathe this morning, was struck on the eyeball by a flying iron filing, inflicting a painful contusion.

Mr. Martin Hartshorn, the stockman, shipped today one of the finest short-horned animals which has ever been seen. It was shipped to England.

Mr. and Mrs. H. A. Church and daughter Mabel of Granville were in the city today.

Mr. Edward Keagy, a well known and highly respected farmer, died yesterday at his home near Hebron.

15 YEARS AGO TODAY.

(From Advocate, April 6, 1900.)
Mrs. W. W. Thomas of Philadelphia has arrived and will spend the summer with her daughter, Mrs. S. W. Haight.

Tuesday, April 3, was the twenty-fifth anniversary of the burning of the old Licking County Court House, which was afterwards replaced by the present elegant stone court house.

Mr. J. E. Zickrick, the enterprising laundryman, has purchased the interest of Mr. H. J. O'Donnell in the Troy steam laundry and will conduct the business.

Mrs. J. B. Krueger has been called to Zanesville on account of the serious illness of her father, Mr. John W. Hayes.

Fifty Years Ago Today. April 6.

Meade, with the Army of the Potomac, advanced toward Amelia Springs. Lee was, however, moving west toward Appomattox. A running battle ended in the capture by Meade's troops of 8,000 prisoners, including General R. S. Ewell.

Stoneman's Federal cavalry was destroying the Virginia and Tennessee railroad west of Lynchburg to prevent the retreat of Lee beyond the Blue Ridge.

Readers' View Point

Thank You.
Editor of The Advocate:—It has been a pleasure to see what an attractive sheet you get out. It strikes me as unusually full and complete for a city of the size of Newark. Your clear typographical work and skilful display of news strike me as very good, and your townspeople must be pleased to have their city so well represented. With best wishes,

HOW TO CLEAR AWAY PIMPLES

Bathe your face for several minutes with resitol soap and hot water, then apply a little resitol ointment very gently. Let this stay on ten minutes, and wash off with resitol soap and more hot water, finishing with a dash of cold water to close the pores. Do this once or twice a day, and you will be astonished to find how quickly the healing resitol medication soothes and cleanses the pores, removes pimples and blackheads, and leaves the complexion clear and vivacious.

Resitol ointment and resitol soap stop itching instantly and speedily heal skin humors, sores, burns, wounds and chafing. Sold by all druggists.

SOAP FOR BABY'S TENDER SKIN
The regular use of resitol soap is usually enough to prevent those distressing rashes and chafings to which most babies are subject. This is so, first, because resitol soap is absolutely pure and free from harsh alkali, and second, because it contains the resitol medication, on which so many physicians rely for skin troubles.

FOR BEAUTIFUL HAIR, NOURISH THE SCALP.

Dandruff must be removed and the hair roots nourished to stop falling hair and itching scalp. It is unnecessary to have thin, brittle, matted, stringy or faded hair. No matter how unsightly your hair, how badly it is falling, or how much dandruff, simply rub Parisian Sage well into the scalp and it will be all that is ever needed. The hair roots are nourished and stimulated to grow new hair. Even all dandruff is removed with one application, itching scalp and falling hair cease; the hair becomes soft, fluffy, abundant, and radiant with life and beauty.

Parisian Sage, a daintily perfumed liquid, is one of the most pleasant, invigorating and refreshing hair tonics known, yet perfectly harmless and inexpensive. After the first application you will be surprised and delighted with Parisian Sage, for there is nothing that will so help to double your present attractiveness as luxuriant, glorious hair, and this tonic treatment is all that can possibly be desired.

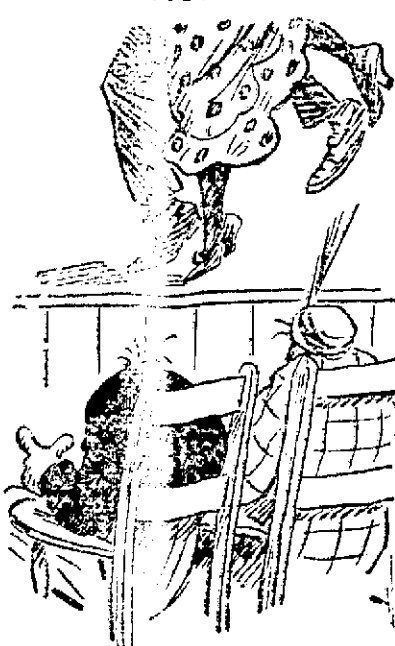

Be sure to get Parisian Sage from T. J. Evans, or at any drug counter, as there is no other so effective.

Starve the Fly By Sanitation

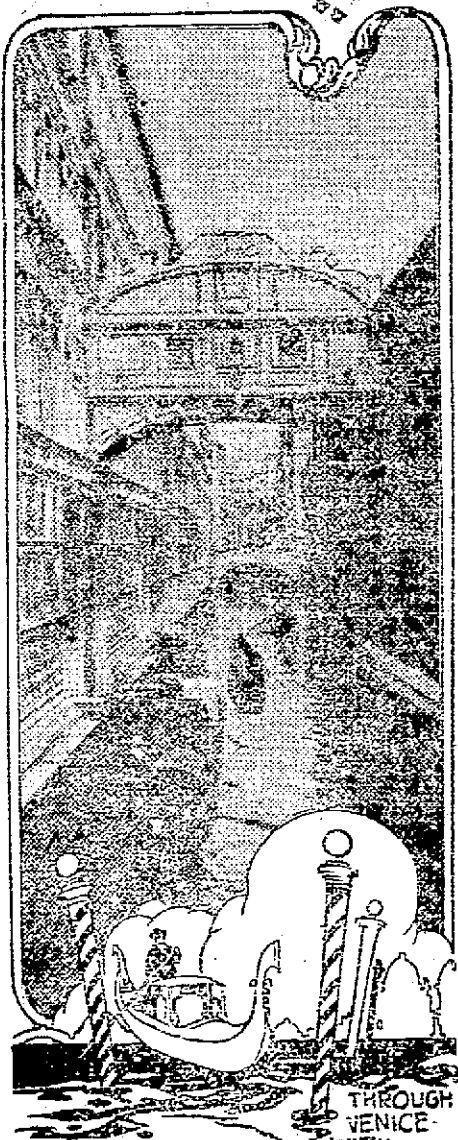

If the food supply in the locality in which he is born gives out a fly will not migrate to some other part of the city in search of food. Nature has not endowed the insect with the power to travel great distances. Health experts who have studied the fly problem are of the opinion, therefore, that if each citizen would maintain his premises in such a sanitary condition that flies would find no food there the pests would starve by the millions and, in time, would disappear altogether.

IMPORTANT MEETING OF FAIR BOARD

The board of agriculture at its last regular meeting, held in the assembly room of the court house, completely revised the premium list of the Licking county fair, making a number of radical changes.

A committee composed of O. B. Young, J. C. Williams and J. M. Lambert, representing the Granges of the county, appeared before the board and was granted a number of concessions.

The board also made a number of changes in the rules and hereafter all exhibits must be on the ground by six o'clock in the evening on the first day of the fair.

In the racing program a county trot and pace was added to the card and the board showed a progressive move in the right direction. The purses for the two events will be \$150 each. On Wednesday of fair week will occur the county trot, entries only from horses owned in Licking county, a 2:24 pace, a 2:27 trot and a 2:14 pace. A Shetland pony race will also occur on this day.

On Thursday afternoon will occur the 2:15 trot, 2:17 pace, a free-for-all pace and a running race. On Friday afternoon there will be a 2:24 trot, 2:20 pace, free for all trot, county pace and a running race.

In the horse department a class has been added for Belgians. All departments were carefully gone over by the board and a number of improvements were made. A new cattle barn will also be built this year. A committee was also appointed to confer with the merchants of the city regarding the erection of a new exposition building for the merchants.

The board endorsed T. E. Adams as a member of the state agricultural commission after which the board adjourned to take up the work at some future date.

Secretary Frank E. Dudgeon is fast becoming familiar with the varied duties of his office and it is keeping him quite busy getting everything in first-class shape. He states that this year's big county exhibition is going to be the banner fair and he is doing everything in his power to boost to that end.

The following resolution proposed by a committee consisting of Messrs. Fred H. Stevens, C. D. Lake and J. W. Hankinson, was introduced and adopted:

"Inasmuch as the city of Newark, O., has no public comfort station for the benefit of the public, be it Resolved by the Licking County Agricultural Society, that the commissioners of Licking county be requested to provide a suitable and convenient place in the basement of the court house, or some other convenient place, for the location of a comfort station for the benefit of the public. The location and arrangement of said comfort station to be left to the judgment of the commissioners.

Granville

Granville, April 6. — The last regular meeting of the Travelers' club was held yesterday afternoon, the "sealed program" for which was broken by the president, Mrs. W. E. Clemons in the presence of almost the entire membership. This proved to be a delightfully arranged musical program of six numbers with a reading by Mrs. Fred Seymour, piano duet from Greig's music to "Peer Gynt," Mrs. Howard Darrow, Mrs. J. S. Jones, soprano solo, "Because of You," Mrs. John Ogilvie, reading, "Evening Dress," from Zona Gale, Mrs. Seymour, Two Love Lyrics by Goring Thomas, Mrs. Clarence D. Coons, "A Study in Octaves" for the piano, Mrs. Susan Davidson, vocal quartette, "Highland Laddie," Mrs. J. Rohrer, Mrs. Ullman, Mrs. Coons, Mrs. Stickney, soprano solo, a group of three songs by Anita Owen, Oleo Speaks, Guy d'Harcourt, Mrs. Rohrer. Following the musical treat, Mrs. Clemons, whose administration of club affairs during the past two years has been marked by great and increasing efficiency, as well as by the grace and ease with which she presided, gave a little farewell speech, expressive of the pleasure and profit she had gained from the club, and of the grateful appreciation she has felt for the loyal support and co-operation of the members. In conclusion she cordially invited all present to stay for a little social. She was the recipient of many felicitations and congratulations, on the distinguished success of

AMOLOX THE NEW DISCOVERY

Many Cures Reported Daily in Towns Where It Is Known.

The wonderful cures that are being made by this remarkable new remedy are almost beyond belief. A young man from Ottumwa, Iowa, suffered from a bad case of eczema. His face was a sight to behold with red blotches and pustules. So unsightly was his appearance that he gave up all social life. After a few weeks' treatment with Amolox, the skin cleared, and he was entirely cured. A mother wrote wondering for months following her daughter's cure. Amolox had done wonders for her daughter, and she was married last year. This is one of the many cases that are being reported in towns where Amolox has been introduced and its merits have become known. Amolox Ointment will quickly banish pimples, black heads, and all minor skin troubles. Bad cases of Eczema, Psoriasis, Tetter, and skin diseases, itching for years, should use both ointment and liquid to effect a cure. Trial size, 50c. Guaranteed by T. J. Evans.

LOOKED LIKE USE OF SURGEON'S KNIFE

But Nerv-Worth Did Away With The Danger of an Operation.

Among the Nerv-Worth endorsements which have appeared in this newspaper from time to time was one given some time ago by Mr. Frank Frost of this city. Said Mr. Frost:

"My Wife was extremely nervous. She could not do her housework, could not rest at night. Headaches made life miserable, pains in the stomach and back were frequent. She had no appetite, gas packed her stomach. She was such a very sick woman that doctors insisted on an operation. But after taking Nerv-Worth a week all her troubles were gone. There is no nervousness and health is here once again. She eats and sleeps well."

These words tell their own convincing story. Nerv-Worth was guaranteed to Mrs. Frost. So it is to you. Sold at the T. J. Evans drug store, Varden block. \$1.00 a bottle.
